# Welcome to a place where networking actually works.

**Welcome to Sage City** . . . the all-new collaborative meet-up at Sage Summit that completely reinvents live conference networking.

Sage City is a radical new take on how we make connections. It's a mash-up of the best aspects of networking: small groups, structured topics, social media, and more. Think you've been there, done that? Think again. This is a game changer. If you miss Sage City, you'll miss an unprecedented opportunity to gain deep customer insight, share your experiences, and host small group discussions.

This one-of-a-kind event takes place Tuesday, August 14, at the close of the partner conference and the start of the customer conference. Get a behind the scenes look »

## Three reasons every partner needs to be at Sage City:

- Become a Village Host. Opt in during your registration to serve as a small group facilitator and ensure a memorable experience.
- 2. **Share your expertise**. Help customers overcome challenges, find solutions, and discover more efficient ways to work.
- Gain eye-opening insight. Peel back the onion and hear real-life accounts of the business challenges customers are facing.
